

Below are the winter field day activities I've been made aware of so far. If your club is planning on having a winter field day event, or you know of others in the area holding events, feel free to let me know and I'll be glad to update this list.

Thanks!
Lynn, K7LW

Spout Springs Repeater Association

Dear SSRA Club Members,

Due to a scheduling conflict at the Teamsters Training Center, located at 2410 East Saint Helens St., Pasco, WA 99301, our Winter Field Day will officially start at 3:00 pm on Saturday, January 25, 2025.

Please pass this information to anyone you know who is planning on attending. Additionally, please RSVP if you are planning to attend and/or bring chili for the "Chili-Cook-Off."

Thank you.
SSRA Club Secretary

Willamette Valley MESH

Our location is near the top of Parrett Mountain in Newberg, Oregon at the Bob & Crystal Rilee Park Trailhead.

Thanks to Chehalem Parks and Recreation District, we have obtained permission for overnight camping with setup on Friday Jan 24 and Saturday Jan 25, with conclusion of the event and cleanup on Sunday 26th.

The AREDN mesh network will be deployed to facilitate coordination, information, and group logging.

We are currently seeking participants from the Amateur Radio Community to join us in setting up portable operations in the park and making contacts.

Please contact Richard Cornwell, K9RCP at rcp@techtoknow.net to RSVP before January 21.

Let him know what equipment you will be bringing, and how you can help. You will need to come prepared to camp and operate your portable station for the weekend. It will be challenging and fun. Visitors are also welcome.

Updates and more details will be published here and on the Willamette Valley Mesh Network (WVMN) reflector: <https://groups.io/g/WVMN>

Location:

Chehalem Parks & Recreation District
Bob & Crystal Rilee Park Trailhead
